# REGIONAL COLLEGE OF HEALTH SCIENCES

## THE COLLEGE

Regional College of Health Sciences (RCHS), established in 2021, is an Allied Health College specializing in Medical Laboratory Science. Promoted by the North East Regional Trust, Guwahati, the college is committed to providing quality education, practical training, and research in allied health sciences. RCHS prepares skilled Medical Laboratory Professionals who play a vital role in disease diagnosis using advanced scientific techniques, contributing significantly to quality healthcare.

## RECOGNITION AND AFFILIATION

Recognized by the Health & Family Welfare Department, Government of Assam (HLB.273/2021/51), and affiliated with SSUHS (SSUHS/93/2021/3845).

## DIRECTOR'S MESSAGE

"All of us do not have equal talent. But, all of us have an equal opportunity to develop our talent"  
- A P J Abdul Kalam.

Dear Students,

Welcome to the Regional College of Health Sciences.

The vision of this college is to provide comprehensive education along with practical expertise. This can only be achieved by creating a better learning environment, professional teachers with sound knowledge, providing well-equipped laboratories. The biggest hurdle during this pandemic was a shortage of MLT professionals. RCHS has come at a felicitous time when there is a felt need for Medical laboratory professionals. RCHS clinical laboratory is well equipped which augments the skill and knowledge requirement of our students.

Achieving excellence is always a continuous journey of our college. The sole purpose of our college is to prepare the students in a way so that they are knowledgeable, employable with strong command over their practical skills. I anticipate the full cooperation of the student fraternity, their parents, and well-wishers of the college. I look forward to your valued suggestions to transform this college into a center of excellence in producing skilled professionals.

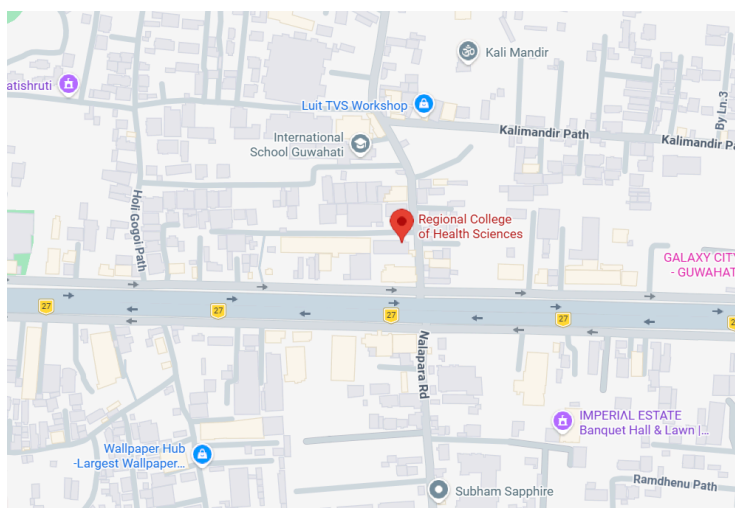

I invite you to be part of this glorious journey

.....

## MEDICAL LABORATORY PROFESSIONALS

Medical Laboratory Professionals (MLPs), also known as Medical Laboratory Technologists or Clinical Laboratory Scientists, are essential members of the healthcare team who perform diagnostic testing on clinical specimens in areas such as hematology, biochemistry, microbiology, immunology, and pathology. Their expertise ensures accurate laboratory results that support disease diagnosis, treatment, and patient care. With the advancement of automation and modern diagnostic technologies, the role of Medical Laboratory Professionals has become even more vital. As laboratory investigations form the foundation of most clinical decisions, these professionals serve as the backbone of modern healthcare. The Regional College of Health Sciences (RCHS) is committed to preparing competent Medical Laboratory Professionals to meet the growing demand for skilled healthcare personnel in Northeast India and across the country. Graduates enjoy excellent career opportunities in hospitals, diagnostic laboratories, research institutions, biotechnology companies, and public health organizations.
