THE COLLEGE

Regional College of Health Sciences (RCHS) is an Allied Health College established in the year 2021, primarily in the field of Medical Laboratory Technology. The college is promoted by North East Regional Trust, Guwahati a registered trust under the Indian Trust Act 1882, and was proudly founded in the year 2020 with a sole objective to promote education in the field of Allied health sciences. Keeping the main objective the Regional College of Health Sciences (RCHS) started by the trust. The college aims at quality education, training, and research in the field of Medical Laboratory Technology. Medical Laboratory Science is an important subject in the field of Medicine. In each system of Medicine, diagnosis of the disease is the primary step. No treatment is possible without a proper diagnosis. It is the Medical Laboratory Technocrat, who performs this important task with various scientific tools and techniques.

RECOGNITION AND AFFILIATION

Regional College of Health Sciences is recognized by the Health and family welfare department, Govt. of Assam vide No. HLB.273/2021/51 and affiliated to Srimanta Sankaradeva University of Health Sciences (SSUHS) vide no. SSUHS/93/2021/3845.

DIRECTOR'S MESSAGE

DR. A. C. DEKA
MS MLT, PhD

"All of us do not have equal talent. But, all of us have an equal opportunity to develop our talent"

- A P J Abdul Kalam.

Dear Students,

Welcome to the Regional College of Health Sciences.

The vision of this college is to provide comprehensive education along with practical expertise. This can only be achieved by creating a better learning environment, professional teachers with sound knowledge, providing well-equipped laboratories. The biggest hurdle during this pandemic was a shortage of MLT professionals. RCHS has come at a felicitous time when there is a felt need for Medical laboratory professionals. RCHS clinical laboratory is well equipped which augments the skill and knowledge requirement of our students.

Achieving excellence is always a continuous journey of our college. The sole purpose of our college is to prepare the students in a way so that they are knowledgeable, employable with strong command over their practical skills. I anticipate the full cooperation of the student fraternity, their parents, and well-wishers of the college. I look forward to your valued suggestions to transform this college into a center of excellence in producing skilled professionals.

I invite you to be part of this glorious journey

Lokhra, Guwahati-40

ADMISSION

Admission form and course details can be obtained in person from the college office on payment of Rs.500/. Alternatively, students can also apply online at www.rchsassam.org

Admission will be based on merit and entrance basis and will have fee relaxation for meritorious students.

INFRASTRUCTURE

Classroom facilities:

The institute has organized spacious audio-visual classrooms in peaceful environment with comfortable seating capacity, well equipped with LCD projectors, whiteboard, Wi-Fi facility. The classrooms are well ventilated with sufficient natural light.

Laboratory facilities:

Well-equipped laboratory facility is the unique characteristic of the Institute. The laboratory is well-equipped with required equipment, apparatus, glasswares and plastic wares for the smooth performance of practicals for the course according to the specified curriculum of the university.

Library facilities:

The library contains all the books specifically required for the program and is based on the curriculum. These includes the universally followed standard books for medical laboratory programs and also specific books for reference. The students can borrow books for a specific time. The library works on all days except Sundays and holidays.

Cafeteria cum stationery shop:

A cafeteria is attached to the campus for the students for refreshments during off periods.

Hostel facilities:

Separate boys and girls hostel facilities are available at the closest proximity of the college campus.

FACULTY

The college has highly qualified and experienced faculty members in the field of laboratory science. The teaching staff has vast experience in academics and research with lot of research publications in impact factor journals and course-specific books in their credit. Other than regular teaching the college also organizes various guest lectures, workshops and awareness programs for the better learning of the students.

MLT

Medical Laboratory Technology:

A medical laboratory professional (also referred to as a Medical Laboratory Technologist, a Clinical Laboratory Scientist or Clinical Laboratory Technologist) is a healthcare professional who performs chemical, hematological, immunologic, microscopic and microbiological diagnostic analysis on Clinical samples. Medical laboratory scientists work in clinical laboratories at hospitals, referral laboratories, biotechnology laboratories, and non-clinical industrial labs.” In the era of modern technology, clinical laboratories have evolved and adopted automation. Medical laboratory professionals play an essential part as the backbone of the diagnostic team. Diagnosis is a primary step for treatment of any disease. Medical Laboratory Science has played a significant role in the advancement in the field of Medicine, especially in the past few decades. The RCHS comes at a very appropriate time when there is a felt need for the expansion of the professional health care sector not only in the North East but throughout the country as well. With the shortage of skilled healthcare professionals in the region and the country, the students pursuing these courses will have huge job opportunities.
